U.S.EPA #: IL6890030046

LOG #: B-131R2

Date: September 29, 2016

PUBLIC NOTICE OF DRAFT HAZARDOUS WASTE PERMIT RENEWAL

The Illinois Environmental Protection Agency (IEPA) and U.S. EPA hereby give notice of intent to renew a Resource Conservation and Recovery Act (RCRA) permit held by the United States Department of Energy for the Fermi National Accelerator Laboratory (Fermilab) located at Kirk Road and Pine Street in Batavia, IL. This permit renewal will allow Fermilab to continue performing corrective action and storing hazardous and low level mixed waste.

The Illinois EPA is authorized to administer the RCRA/HSWA program in Illinois, however, U.S. EPA retains authority for administering certain portions of the regulations, including those that are newly promulgated.

The interested public is invited to review a copy of the permit application, draft permit and related fact sheet at the Batavia Public Library, 10 South Batavia Avenue in Batavia.

Send written comments and/or hearing requests on the Illinois EPA and U.S. EPA portions of the draft permit to the respective Agency contact listed at the end of this Notice postmarked by midnight November 13, 2016. Timely comments will become part of the respective Administrative Record (AR) and be evaluated in making the final permit decision. A public hearing request must be made in writing, state opposition to the draft permit and the nature of issue(s) to be raised at the hearing. Commenters will be notified of the permit decision and the respective appeal process.

The state's AR (permit application, draft permit and all permit data submitted to the IEPA) is available for inspection by appointment only at IEPA's Springfield office, contact:

Jillian Hawkins (#5)

Phone: 217/524-0922
